Lies & Truths

Okay

Don't tell no lies

And you won't no hear no truths

You want to swing for the fences

Your last name better be Ruth

Babe I ain't got time to be nice

And play around with silly formalities

I sit back and smile

Then worry about you being mad at me

It's sad that it can come to this

While many ready to see it gladly

Just know I know when you think I don't

And I can tell it's maddening

I'm getting too old

And too cold

Yeah I'm numb to it all

Been icy hot working on myself

And that's just the way I ball

Yeah we may have been friends

And that's not how it ends

That just how the dominoes fall

And don't let it ricochet into many things

I'll be the one to make it stall

Because if it's not for me

Really not for me

So don't gotta out way to come for me

I'll give you five seconds

For the three chances

Too many

And just know then I was the one

Now I got zero fucks

And zero bucks

To pay for the nothing

That's not gonna bring me happiness

Yet you can try my luck

And I can keep going

Really keep going

Energize me and I'm committing battery

Toy with me if you want to say it's not included

Finding out is a form of flattery

Tantrums

Don't you know that

Don't you know

That you fucking with a Cancer

I'm not expecting AI but I hope you know the answer

You should expect AI when I show you three sides

The good, the bad and the reason

Hope you enjoy the ride

Tantrums

I had one of those

But don't let me start now

Cross me

And I'll have you answering how

Cross me

And when you get across this balancing act

Take a bow

You thinking I'm a rock with you for long

Look at my people's eyebrow

You're nobody

Just someone I used to know

Stopped me in my tracks

But now it's time for you to go

You're nobody

You just somebody I would right about from time time

And you still track my socials like you wish you were mine

Thoughts

Have you ever thought?

Hmmm there's not enough time

Try to press play with me you all you want

Just know there ain't no rewind

Just ascending on an incline

While ascending you on a decline

While descending, just know I cant deny

I'm one of the best to ever do it

Again why you even try

Yet you keep getting up

Dust your self off

Quit bugging me about content

Yeah it's time to pop off

That warning light came on

Now it's to go off

Aimed, cocked and loaded

Now it's time to pop off

I got things in the chamber

For those that want to pop off

Tell your friends

This ain't the one you want play with

Don't check your calendar for me

I ain't someone you could handle a day with
And I know this for a fact
This man right here a myth
And when I hear that lighter sound
It's on smoke like a spliff
I come from the era from Limewire and Datpiff
And just know my presence here is the gift

Insomnia

Insomnia (by Normani)
I'd be ignorant
To think that time is infinite
So bad that I can't sleep
Thoughts got me weak

Running like film through my mind
To the point that I can't speak
Memories of it all
Got me climbing to the edge
Let's hope no one falls
Sometime it feels like everything wants to run
When I'd just want it to crawl
It always takes an event
For it to build up and then I vent
Let out all I'm thinking
Wallet's empty because I'm spent
And my mind begins to spin
Is this how it ends?
Just know that everything
Isn't alright when we have to begin
I wish I didn't worry
My mind can be impossible
And everything ongoing
It's giving me Insomnia

Trying Me

July is said to be
The month that you lied
And you have to deal with
That guilt on the inside
Of you thinking of someone in your insides
Maybe that'll give you some insight
Because shit you did in the dark
Will always come to light
No one's walking in your shadows
You created your own heartless...

Nature...
Don't mind me right now
I get critical by nature
Disrupting a king
Disrespecting my nomenclature
Penciled too many mistakes
In need of erasure
Wax on wax off
In need of a laser
Maybe that'll raise your brows
And witness all the bullshit
You curated
Tried to belittle, berated

Gain a following and paraded
Your antics until your high came down
Now you're jaded
Now I'm in the bar getting faded
Ounce by ounce
Til I'm feeling sedated
This is the mindset you really created
Trying me
Trying me
Trying me
Trying me
